The Chief Protector of Aborigines
57 Murray St
Perth

In reply to your 133/22 of the 8th inst. I am sending you enclosed a list of specimens supplied to you some months ago for Dr Haden Quest with the localities where the objects were obtained.

I am glad to learn that the Museum is likely to receive in the near future a collection of objects made by the natives living in the vicinity of Avon Valley Station. Additions of this kind are urgently needed to replenish our reduced stock for it is realised that soon genuine objects will be unobtainable.
